- ↪ Surgery
- ↪ Orthopedic farriery
- ↪ Internal medicine
- ↪ Prepurchase examination
- ↪ Ophthalmology
- ↪ Orthopedics
- ↪ Reproduction
- ↪ Foal Intensive Care

Veterinary Clinic Emmeloord is looking for a motivated equine veterinarian for an internship position! Did you recently graduate and do you want to extend your knowledge of equine medicine and improve your skills before you have to start working independently? Or do you want to explore the different equine disciplines further as a preparation for a specialisation (residency program)? Or do you have more experience with other animal species (ruminants) and do you want to focus more on equine medicine? In all these cases Veterinary Clinic Emmeloord is the place to be! We offer you the opportunity to work on an internationally well-known equine clinic in combination with learning from our different specialist in several disciplines. Our specialisations are surgery, orthopedics and medical imaging, but other branches of equine medicine, like reproduction, internal medicine and dental work, are also widely covered.

We are looking for an equine veterinarian for an 'internship' position for the period of 1 year, to participate in a team of 3 intern vets. As an intern you are responsible for the daily treatment of the hospitalized patients, the intake of emergency patients and for anesthesia in surgery candidates. Furthermore we offer the possibility to join and help our specialists in their daily appointments, scrub in with different surgeries or join the ambulatory vets on their visits. The clinic has a housing option. Experience is not necessary! The position starts in mutual consent.

Do you recognize yourself in the position or do you want more information, please don't hesitate to contact us! You can call +31(0)527 613500 and ask for Ellen Compagnie or send an email to [e.compagnie@dierenkliniekemmeloord.nl](mailto:e.compagnie@dierenkliniekemmeloord.nl).
